## ANOTHER LADY MAYOR

Lady mayors certainly are making good, for now that one has successfully held down the post others are ready to follow suit. Florida had the honor of electing within its bounds the first lady mayor in the country. Now Warren, Illinois, quickly follows, electing Mayor Canfield, who has already proved her executive fitness. With the war in full swing, we will probably have ladies holding down the various municipal offices, from city chief to doorkeeper of the municipal building.

## TOWN SPROUTS OVER NIGHT

The engines were stopped and the crew ordered into the boats. Four more bombs were dropped dangerously near the vessel. The ship's company, after remaining for about two hours in the boats, returned to their vessel. ## TELLS VOPIKA TO GET WINE

Take Jonescu, Roumanian Statesman, Almost Forgot Important Advice.

Zurich, Switzerland.—Statesmen send queer telegrams, even at critical times. And while busy foreign offices are revealing the private intercourse of kaisers and czars, the Bucharest Lumina has pried into Roumanian archives to tell an anxious world what Take Jonescu telegraphed in a terse midnight telegram to Charles J. Vopicka, minister of the United States to Roumania. It was a critical hour for Roumania, for the German invaders were marching over the Carpathians in three columns, and the royal government had transferred its capital to Jassy. Whereupon M. Jonescu telegraphed:

Jassy 5926, Nov. 27, 1916, 12:40.—Urgent.

"Excellency Vopicka, American minister, Bucharest: I forgot to tell you that in the cellar of my house there are several bottles of Rhine wine. Even if you have to break into the palace, I beg you to take the wine and drink it to my health. Again a thousand thanks."

"TAKE JONESCU."

## RULES TO AVOID FLAT FEET

Marine Corps Examining Surgeons Issue Some Simple Exercises and Pointers.

Washington.—Owing to the number of otherwise splendid applicants rejected from the United States Marine Corps for flat feet, marine corps examining physicians have issued the following simple exercises and pointers, which if followed, they say, will remedy that ailment:

During exercise at all times, turn the toes in.

Walk with toes of each foot pointing to the front; in straight line, if possible.

Stand with toes turned in; raise body on toes, slowly, as high as possible. Rest a second, then with weight of body borne on toes, lower slowly down to floor, and repeat.

When in the house in stocking feet, walk on toes; heels not touching the floor, and toes turned in.

When sitting, cross the legs, the foot always resting on the outer side.

The wearing of broad toe shoes, with the metal "arch supporter" absolutely abandoned, also is advocated.

## PUTS "PEP" INTO CHICKENS

Vaccination, as Advocated by the University of California, Seems to Be Successful.

Pomona, Cal.—Vaccination of chickens, advocated by a University of California poultry expert, and tried out here by Henry Boon on his 500 hens, is a remarkable bit of Hooverism, according to Boon, who has reported that his hens now scratch so energetically for worms that he has to feed them far less than formerly.

The poultry association here also advocates vaccination, asserting it prevents disease, causes the fowls to lay more eggs and gives them an astonishing amount of "pep" to scratch for a living.

EXEMPTS ONLY 1 OUT OF 20

Draft Boards' Decisions in Industrial Cases Usually Upheld by President Wilson.

Washington.—Only one in twenty appeals to President Wilson for draft exemption on industrial grounds has been decided in favor of the applicant, it was said at the provost marshal general's office. In other cases the president has ratified the judgment of district boards that the applicant was not indispensable to a necessary war industry. About eight thousand appeals have been received, but only a small proportion decided.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 55 or 60, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain poison, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.—adv.

It costs Uncle Sam \$18 a pair for shoes for Private Stuckey, of the Sixth Engineers, but the government figures he is worth all the extras he costs. The shoes are No. 10 1/2, made to order.
